

ChartHop Product Lead

API Integrations, Data Processing, 1.2022 - 9.2023

- Led two product teams owning business-critical processing platforms: 3rd-party API integrations, data processing infrastructure, and new customer setup experience
- Built 3 new API integrations (Workday, ADP, Deel) to expand projected ARR by +20% alongside maintaining 20 existing integrations.
 - Coordinated ChartHop's first two commercial partnerships, with ADP and Deel.
- Instrumented, audited, and fixed 50% of data processing errors impacting 80%+ of customers
- Ideated, built, and shipped compensation bands end-to-end (creation, management, adoption), a foundational primitive for compensation reviews, in 4 months
- Consistently partnered with C-suite, senior customer support leadership, and across product teams on integrations roadmap's impact on ARR/NRR, ultimately saving 20% of total ARR

Yahoo Product Manager

Yahoo News iOS & Android, 7.2020 - 12.2021

- Increased combined app revenue +55% by identifying our top-line KPI (articles per session) and iterating on 15+ A/B experiments
